

Create Text To Speech Service

Team ID	PNT2022TMID11112
Project Name	Personal Assistance for Seniors who Are Self-Reliant

Text to speech created successfully

The screenshot displays the Watson Text to Speech console interface. On the left, a sidebar menu under the 'Manage' header includes links for 'Getting started', 'Service credentials', 'Plan', and 'Connections'. The main content area is divided into two sections. The top section, titled 'Start by viewing the tutorial', contains a button for 'Getting started tutorial' with an external link icon and a link for 'API reference'. The bottom section, titled 'Credentials', features a 'Download' button with a download icon and a 'Show credentials' button with an eye icon. Below these buttons, the 'API key:' is shown as a masked field with a copy icon, and the 'URL:' is displayed as 'https://api.au-syd.text-to-speech.watson.cloud.ibm.com/' with a copy icon. On the right side of the console, a 'Plan' section shows the current 'Lite' plan and an 'Upgrade' button.
